HOT HOUSES

Double Level Master 2.46 m

Master Single & Double Level			
Structure	Height	2.03m	6ft, 8ins
	Width	1.72	5ft, 8ins
Shelving	Width	48cm	1ft, 7ins
	Single Level Height Master	92cm	3ft
Double L.	Height 1st Tier	70cm	2ft, 4ins
	Height 2nd Tier	134cm	4ft, 5ins
Doorway	Height	1.73m	5ft, 8ins
	Width	76cm	2ft, 6ins

- Usage** The one level of shelving is especially useful for even propagation of your seedlings. For those who prefer more storage space, select the two-tier option around the inside perimeter.
- Frame** The frame and shelf supports are made from heavy duty tubular PVC that is sun protected.
- Shelving** Galvanised steel mesh, cut and shaped to fit on built-in shelf supports.
- Shade Cloth** Commercial quality cloth, which is cut, sewn and hemmed. This one-piece cloth fits over the frame like a glove and is held in place with removable plastic pins.
- Door** Hinged PVC framed door covered with shade cloth. Comes with a pad bolt for locking.
- Assembly** Being in kit form with all pipes and fittings separately identified, the shade house is easily assembled using a rubber mallet without the aid of glues and screws. Able to be dismantled again should the need arise.
- Extras** Base Shelves can be added just above floor level for extra storage etc. Rain/Frost cover that extends across the top and a short way down the sides for extreme weather protection. Hot House kit available
- Guarantee** 10 year guarantee on frame and fittings with 10 year manufacture warranty on the shade cloth & 5 year manufacturer warranty on the solar plastic
