

# The Wide Executive Series

A U S S I E Est.1986

SHADE &  
HOT HOUSES

Wide Exec H 4.0m x 4.88m Single with Base Mesh & 50% Green Cover

Wide Executive H 4m x 8.5m Double with 50% Green Cover

- Usage** The one level of shelving is especially useful for even propagation of your seedlings. For those who prefer more storage space, select the double level option along the side and rear walls.
- Frame** The frame and shelf supports are made from heavy duty tubular PVC that is sun protected. Frame and fittings have a 20+ years life span.
- Shelving** Galvanised steel mesh, cut and shaped to fit on built-in shelf supports. Duplicated in centre roof for those requiring the plant hanging facility.
- Shade Cloth** Commercial quality cloth, that is cut, sewn and hemmed. This one-piece cloth fits over the frame like a glove and is held in place with removable plastic pins.
- Door** Hinged, PVC framed door covered with shade cloth. Comes with a pad bolt for locking.
- Assembly** Supplied in kit form with all pipes and fittings separately identified, the shade house is easily assembled using a rubber mallet. NO glues or screws. Able to be dismantled again should the need arise.
- Extras** Base Shelves can be added just above floor level for extra storage. Rain/Frost cover that extends across the top and a short way down the sides for extreme weather protection. Hot House kit available.
- Guarantee** 10 year guarantee on frame and fittings with 10 year manufacturer's UV warranty on shade cloth and a 5 years manufacturer's UV warranty on solar plastic.
